## About This Game

The master of macabre, Edgar Allan Poe, leads you on a shadowy journey to finally solve the mystery of his death. As a famed mystery writer, you're looking for your next cold case to crack when an unexpected visitor hands you the perfect case to get your career moving again.

When Edgar leads you through some of his most famous works, *The Raven*, *The Gold Bug*, *The Mystery of Marie Roget* and *The Purloined Letter*, you'll collect clues, interview witnesses and piece together the conspiracy behind the death of one of America's greatest writers.

Who killed Edgar? And, why were such measures taken so that no one would ever know the truth? You have 24 hours and ghosts of the past to guide you through *Midnight Mysteries: The Edgar Allan Poe Conspiracy!*

- 
- Celebrate 200 years of Poe in this seek and find murder mystery
  - Hidden object adventure lets you crack a 160-year-old case
  - Guided by Poe himself, you'll collect items and clues through his most famous works
  - Solve intriguing puzzles to figure out exactly whodunit!

Good way to kill a rainy day :). I love mysteries and I have enjoyed a few mystery games, but I've never really tried out hidden object puzzle games before. This was a nice blend of a mystery with hidden object puzzles. As others have said, it was not difficult and it was impossible to get stuck. Personally, I enjoyed this, as I'm new to the genre. I am currently playing through the second game (Salem Witch Trials), and I've gotten stuck several times. Perhaps that means this game is too easy, but I enjoyed it because I also really enjoyed seeing how the various stories played out and how the different items actually became real clues to the mystery or integrated into the plot. It was very immersive and addictive: I played through the whole thing in one sitting!. I'm at this one puzzle and it is a blank screen... Its very annoying because when I restart my computer and steam and bring the game up, its still a blank screen.. Any suggestions on how to fix it? Plus I already tried uninstalling it and re-installing it and still nothing. I'm not a fan of this genre of games, but i found this game's quite amazing. The imagined story of Edgar Allan Poe's death and art is on a good quality (from my point of view, it would have been better if art would have been more darkly and sinister, especially Red Death). If you're tired from work, this game can calm you down with its soothing music and gameplay.. Very well done hidden object game. It has a terrific story that ties together adventures in Poe's literature. The clues and hidden objects actually seem to have meaning to the game as a whole. The cleverness of using some of the found objects to reveal other found objects harkens back to adventure gaming. You could call it a HOG Hybrid. Fun and entertaining.. ENG (wersja polska ni\u017cej)

This game is a clear case of a brain plug and like every other plug, it should be used to block something: in this particular situation: your brain. Let me explain: one should play a game like this whenever there is too much to think late at night or after work, finding item after item is monotonous and repetitive like digging with a shovel and that\u2019s exactly how I like my hidden object games. And hey! It\u2019s Edgar Allan Poe \u2013 it goes great with the whiskey.

It might be surprising that \u2013 while the game is only about 300 megs of data \u2013 the art is more than solid. The

---

gameplay is exactly what you should expect from a game like that: solve a puzzle here, talk with a lost soul there, find a pickaxe, a cucumber, 2 ribbons, 3 nails and a hilla elsewhere. And don't expect that the story will progress without that hilla. Yes, there is a story good enough not to skip (although such option is provided) or maybe, I was looking for the Poe references?

While it is a solid game, I believe the price tag is set to high. I recommend getting it 75% off and in a pack with the 3 remaining installments of the series which, I must say, are more polished and the adventure hidden object aspects of these games are better balanced. Edgar Allan's Mystery is also pretty short about 3 hours. Is there any reason to return to it later? Nevermore.

PL

Seria Midnight Mysteries sprawdza si idealnie jako zapychacz m\u00f3zgu. Dokladnie tak: odnajdowanie konkretnego przedmiotu, potem jeszcze jednego, nast\u0119pnego i tak zap\u0119tne w ko\u0142ko dzia\u0142a jak przerzucanie ziemi szpadlem \u2013 totalnie wy\u0142acza my\u015blenie, i tego w\u0142a\u015bnie ocz\u0119kuj od hidden object\u00f3w w kt\u00f3re gram. \u015awietnie kiedy p\u017ano w nocy ma si\u0119 za du\u017co rzeczy o kt\u00f3rych nie ma si\u0119 ochoty my\u015ble\u0107, albo po paskudnym dniu w pracy. Poza tym to Edgar Allan Poe co automatycznie sprawia \u017ce gra \u015bwietnie wchodzi z whisky.

Ciekawe \u017ce zajmuj\u0105c nieca\u0142e 300mb Tajemnica Edgara Allana Poe wygl\u0105da naprawd\u0119 nie\u017ale. Gra si\u0119 w to dokladnie tak jak nale\u017ca\u0142o by si\u0119 spodziewa\u0107: tu rozwalasz jak\u0105b zagadk\u0119, tam rozmawiasz z duchem, gdzie\u015b indziej odnajdujesz szpadel, og\u00f3rek, trzy spinki, dwie kokardki i szynszyla. I nie oczekuj, \u017ce historia gry ruszy dalej bez tego szynszyla. A co do historii \u2013 jest, nawet na tyle dobra \u017ceby nie przekliwa\u0107 (jest opcja przeskakiwania scenek) wi\u0119kszo\u015bci tekstu. A mo\u017ce tylko szuka\u0142em nawi\u0105za\u0142 do tw\u00f3rczo\u015bci Poego ?

Podsumowuj\u0105c: Pierwsza ods\u0142ona serii jest ca\u0142kiem solidna \u2013 cho\u0107 9 euro to jednak za du\u017co. Najlepiej kupi\u0107 za -75% w paczce z pozosta\u0142ymi 3 cz\u0119\u015bciami kt\u00f3re, trzeba powiedzie\u0107, s\u0105 lepiej dopracowane i zbalansowane. Tajemnica Edgara Allana jest te\u017c kr\u00f3tka \u2013 3 godziny i po wszystkim. Czy jest po co wraca\u0107 do gry po uko\u0144czeniu w\u0105tku fabularnego? "Nevermore!", zakracze Kruk.. This puzzle game is perfect for people starting out on hidden object and puzzle games of this genre. Cant get stuck since there is a raven you can click to help locate a missing item in the room. This game has ALOT of content three separate stories all combining into one big story. This hidden object game is the kind where every screen looks like a garage sale blew up. This is ok since it makes it a good starting game for new players and for veterans a relaxing well paced story to play through.

Bridgets bio on Edger Allen Poe:

Edgar Allen Poe was rumored in his day as depicted in woodcuts of the era too terrorize the townsfolk of the places he lived throughout his writing career feasting upon the human hearts of those in the countrysides under the pale light of every full moon. It is reported that many who looked into Poe's eyes never lived to tell the tale of his unquenchable bloodlust to prey upon the innocent. His books explored his fascination with the murder of innocent people which many literary scholars believe were based on crimes committed by Poe while he was still alive. It has been said by some that upon his death police raided his posh living quarters where upon pulling up the floorboards discovered Poe's secret stash of still beating human hearts with one of them having a bite out of it. Even to this day, around campfires at Halloween children still spin yarns of the nefarious Poe, who during every full moon stalks his victims in the shadows feasting upon their still beating hearts, only to once again vanish into darkness.

Rating: 10/10 Value: 7.99

---

Good point and click hidden object. A follow the ghost style plot. Nicely done.. It's a good hidden objects game with a couple of different puzzles, using Edgar Allen Poe as the narrative. Good way to kill a couple of hours.. Midnight Mysteries is decent if you're looking for something very light to play. The game is relaxing. There's no time limit on anything. The game gives you the option of finding objects for you if it gets too tough. It took around four hours to beat. The later entries in the series offer a little more complex game play, but they're all still easy and enjoyable.. I need to qualify my recommendation:

1. I run Windows 10 and could not get it to start reliably short of reinstalling every single time I wanted to play
2. I didn't play it long enough to get any kind of sense of the game itself - this review is based entirely upon being unable to start the game.

I found that I had to go to 'Compatibility Settings', set it to Administrator, and as Win XP. That should enable you to start it. Then once you quit the game, it won't work the next time to try and start the game.

Otherwise, this might be a good game, but I couldn't tell you.... This is a good pick for people who like HO games that focus almost exclusively on the HO scenes. Unlike most of the HO/adventure games released in the past couple years, this doesn't have the same complex inventory management and adventure/mystery-solving focus (think Artifex Mundi games). If you're the person who skips over the HO parts of Artifex Mundi games because you can't stand them, you'll hate this.

As such, the plot is imperfect and is just a chain to link one hidden object scene to the next. There are some mini-game style puzzles but very few. There is some very simple inventory management but really nothing requiring much thought (it will be very obvious what needs to be used where and when).

HO scene objects are sometimes hard to distinguish due to the resolution but overall they aren't terribly bad.

Music/sound is nothing that stands out; there is no voice-acting throughout.

All in all, I would recommend this ON SALE to people who like the HO aspect of these casual games. I recommend getting it on sale because the \$9.99 price tag seems a little much for an older game without any frills, especially with a very average three-hour playtime. I picked it up at 66% off and feel that was worth it, but any more seems excessive.. Typical hidden object game with a light hearted ghostly theme. No choices to make and the hint mechanism means you will not be stuck on any level for long. Familiarity with Poe and his stories will enhance your enjoyment of the game, but are not necessary to complete.. This game dragged for me; it is almost entirely hidden object, with few puzzles. The puzzles it does have are very easy, and feel jarring when compared to the random things the game wants you to do (ie, use the objects you pick up in some manner, which is not always apparent) and the difficulty of some of the hidden objects. In one hidden object search, an item was so buried that i still could not see it even after i had the raven point it out. O.o

I hear that the later games in the series are much improved, so i might check those out. But overall, i would have preferred less frustrating hidden objects and more difficult puzzles.. This is a fun casual game.. Good search adventure. Works with touch screen, but sometimes using "tools" is best left to touch pad or mouse.

If the Steam version does not work on your system contact Mumbo Jumbo and get the non-steam version.. As a fan of Edgar Allan Poe's work, I had to check this out. Nevertheless, this game was a disappointment. Took me 3h to get this thru, with small breaks. This was a basic okay, so I'll just list the cons down below.

Pros:

- + Edgar Allan Poe!
- + Okay graphics
- + Enging has a nice little twist, slightly morbib, which bides to the source material

Cons:

- 9,90 is way too much for ~3h playsworth
- No achievements?
- Puzzles not very challenging
- No replay value
- Graphics could be a lot better
- Music is mediocre

---

- Short

All in all, buy it if you love Poe and point and click but only from sale! Not worth the ~10\20acV12\$.
